C. *Programs and Procedures for Chronic and High-Cost Conditions
<p>A sponsor cannot participate in the Early Retiree Reinsurance Program unless, as of the date of its application for the program is submitted, its employment-based plan has in place programs and procedures that have generated or have the potential to generate cost savings with respect to plan participants with chronic and high cost conditions. The program regulations define “chronic and high cost condition” as a condition for which \$15,000 or more in health benefit claims are likely to be incurred during a plan year by one plan participant. Please identify the chronic and high cost conditions for which the employment-based plan has such programs and procedures in place, and summarize those programs and procedures, including how it was determined that the identified conditions satisfy the \$15,000 threshold. If necessary to provide a complete response, the sponsor may submit additional pages as an attachment to the application. Please reference such attachment in this space.</p>
D. *Estimated Amount of Early Retiree Reinsurance Program Reimbursements
<p>Please estimate the projected amount of proceeds you expect to receive under the Early Retiree Reinsurance Program for the plan identified in this application, for each of the first two plan year cycles identified in this application. If you wish, you may provide a range of expected program proceeds that includes: (1) a low-end estimate of expected program proceeds, (2) an estimate that represents your most likely amount of program proceeds, and (3) a high-end estimate of expected program proceeds. For purposes of this estimate only, please assume for each of those plan year cycles that there will be sufficient program funds to cover all claims submitted by the Plan Sponsor that comply with program requirements. If necessary to provide a complete response, the sponsor may submit additional pages as</p>

an attachment to the application. Please reference such attachment in this space.

E. *Intended Use of Early Retiree Reinsurance Program Reimbursements

- 1) Please summarize how your organization will use the reimbursement under the Early Retiree Reinsurance Program to reduce health benefit or health benefit premium costs for the sponsor of the employment-based plan (i.e., to offset increases in such costs); or reduce premium contributions, copayments, deductibles, coinsurance, or other out-of-pocket costs (or combination of these) for plan participants; or reduce a combination of any of these costs (whether offsetting increases in sponsor costs or offsetting or reducing plan participants' costs). If necessary to provide a complete response, the sponsor may submit additional pages as an attachment to the application. Please reference such attachment in this space.

- 2) If a sponsor decides to apply the reimbursement for its own use, it may only use the reimbursement to offset increases in its health benefit premium costs, if an insured plan, or its health benefit costs, if it is self-funded. If any amount of the reimbursement is used to offset increases in health benefit premium or health benefit costs of your organization (as opposed to offsetting increases to, or reducing, plan participants' costs), please summarize how program funds, as a result of being used by your organization for such purposes, will relieve your organization of using its own funds to subsidize such increases, thereby allowing your organization to instead use its own funds to maintain its level of financial contribution to the employment-based plan. (In other words, please explain how your organization will continue to maintain the level of support for this plan, and if it applies the reimbursement for its own use, will use the program reimbursement to pay for increases in health benefit premium costs or health benefit costs, as applicable). If necessary to provide a complete response, the sponsor may submit additional pages as an attachment to the application. Please reference such attachment in this space.
