8 umes of coal combustion residuals appropriate  
9 for the structure. If a structure is determined  
10 by the head of the agency responsible for imple-  
11 menting the coal combustion residuals permit  
12 program to be deficient, the head of such agen-  
13 cy has authority to require action to correct the  
14 deficiency according to a schedule determined  
15 by such agency. If the identified deficiency is  
16 not corrected according to such schedule, the  
17 head of such agency has authority to require  
18 that the structure close in accordance with sub-

5           guidelines published by the Federal Emergency  
6           Management Agency entitled ‘Federal Guide-  
7           lines for Dam Safety: Hazard Potential Classi-  
8           fication System for Dams’ (FEMA Publication  
9           Number 333) is determined by the head of the  
10          agency responsible for implementing the coal  
11          combustion residuals permit program to be defi-  
12          cient with respect to the structural integrity re-  
13          quirement in subparagraph (B), the head of  
14          such agency has authority to require action to  
15          correct the deficiency according to a schedule  
16          determined by such agency. If the identified de-  
17          ficiency is not corrected according to such  
18          schedule, the head of such agency has authority  
19          to require that the structure close in accordance  
20          with subsection (h).

21          “(E) New structures that first receive coal  
22          combustion residuals after the date of enact-  
23          ment of this section shall be constructed with a  
24          base located a minimum of two feet above the  
25          upper limit of the natural water table.

1           “(F) In the case of a coal combustion re-  
2           siduals permit program implemented by a  
3           State, the State has the authority to inspect  
4           structures and implement and enforce such per-  
5           mit program.

6           “(G) In the case of a coal combustion re-  
7           siduals permit program implemented by a  
8           State, the State has the authority to address  
9           wind dispersal of dust from coal combustion re-  
10          siduals by requiring dust control measures, as  
11          determined appropriate by the head of the lead  
12          State agency responsible for implementing the  
13          coal combustion residuals permit program.

14          “(2) REVISED CRITERIA.—The revised criteria  
15          described in this paragraph are—

23          of coal combustion residuals in that State, and may  
24          decline to apply such requirement as part of its coal  
25          combustion residuals permit program. If a State de-

22 quirement under subsection (b)(3); or

23 “(D) is not implementing a coal combus-  
24 tion residuals permit program that meets the  
25 specifications described in subsection (c)(1).

23                          deficiencies detailed under subparagraph (A).

24           “(e) IMPLEMENTATION BY ADMINISTRATOR.—

1           “(1) IN GENERAL.—The Administrator shall  
2           implement a coal combustion residuals permit pro-  
3           gram for a State only in the following cir-  
4           cumstances:

2       ties referred to in section 4005(c)(2)(A) shall apply  
3       with respect to coal combustion residuals and struc-  
4       tures and the Administrator may use such authori-  
5       ties to inspect, gather information, and enforce the  
6       requirements of this section in the State.

7       “(f) STATE CONTROL AFTER IMPLEMENTATION BY  
8       ADMINISTRATOR.—

8                   “(B) REMEDYING DEFICIENT PERMIT PRO-  
9                   GRAM.—For a State for which the Adminis-  
10                  trator is implementing a coal combustion re-  
11                  siduals permit program under subsection  
12                  (e)(1)(B), the State may adopt and implement  
13                  such a permit program by—

14                  “(i) remedying the deficiencies de-

15 trator—

16           “(I) a determination that the  
17 State coal combustion residuals per-  
18 mit program meets the specifications  
19 described in subsection (e)(1); and

20           “(II) a timeline for transition of  
21 control of the coal combustion residu-  
22 als permit program.

23           “(2) REVIEW OF DETERMINATION.—

24           “(A) DETERMINATION REQUIRED.—The  
25 Administrator shall make a determination

1 under paragraph (1) not later than 90 days  
2 after the date on which the State submits a cer-  
3 tification under paragraph (1)(A)(ii) or  
4 (1)(C)(ii), or notifies the Administrator that the  
5 deficiencies have been remedied pursuant to  
6 paragraph (1)(B)(i), as applicable.

7 “(B) REVIEW.—A State may obtain a re-  
8 view of a determination by the Administrator  
9 under paragraph (1) as if such determination  
10 was a final regulation for purposes of section  
11 7006.

12 “(3) IMPLEMENTATION DURING TRANSITION.—

13 “(A) EFFECT ON ACTIONS AND ORDERS.—  
14 Actions taken or orders issued pursuant to a  
15 coal combustion residuals permit program shall  
16 remain in effect if—

17 “(i) a State takes control of its coal  
18 combustion residuals permit program from  
19 the Administrator under paragraph (1); or

20 “(ii) the Administrator takes control  
21 of a coal combustion residuals permit pro-  
22 gram from a State under subsection (e).

23 “(B) CHANGE IN REQUIREMENTS.—Sub-  
24 paragraph (A) shall apply to such actions and  
25 orders until such time as the Administrator or

1 the head of the lead State agency responsible  
2 for implementing the coal combustion residuals  
3 permit program, as applicable—

4 “(i) implements changes to the re-  
5 quirements of the coal combustion residu-  
6 als permit program with respect to the  
7 basis for the action or order; or

8 “(ii) certifies the completion of a cor-  
9 rective action that is the subject of the ac-  
10 tion or order.

11 “(4) SINGLE PERMIT PROGRAM.—If a State  
12 adopts and implements a coal combustion residuals  
13 permit program under this subsection, the Adminis-  
14 trator shall cease to implement the permit program  
15 implemented under subsection (e) for such State.

16 “(g) EFFECT ON DETERMINATION UNDER 4005(C)  
17 OR 3006.—The Administrator shall not consider the im-  
18 plementation of a coal combustion residuals permit pro-  
19 gram by the Administrator under subsection (e) in making  
20 a determination of approval for a permit program or other  
21 system of prior approval and conditions under section  
22 4005(c) or of authorization for a program under section  
23 3006.

24 “(h) CLOSURE.—If it is determined, pursuant to a  
25 coal combustion residuals permit program, that a struc-

1 ture should close, the time period and method for the clo-  
2 sure of such structure shall be set forth in a closure plan  
3 that establishes a deadline for completion and that takes  
4 into account the nature and the site-specific characteris-  
5 ties of the structure to be closed. In the case of a surface  
6 impoundment, the closure plan shall require, at a min-  
7 imum, the removal of liquid and the stabilization of re-  
8 maining waste, as necessary to support the final cover.

9 “(i) AUTHORITY.—

10 “(1) STATE AUTHORITY.—Nothing in this sec-  
11 tion shall preclude or deny any right of any State to  
12 adopt or enforce any regulation or requirement re-  
13 specting coal combustion residuals that is more  
14 stringent or broader in scope than a regulation or  
15 requirement under this section.

16 “(2) AUTHORITY OF THE ADMINISTRATOR.—

17 “(A) IN GENERAL.—Except as provided in  
18 subsection (e) of this section and section 6005  
19 of this title, the Administrator shall, with re-  
20 spect to the regulation of coal combustion re-  
21 siduals, defer to the States pursuant to this sec-  
22 tion.

23 “(B) IMMINENT HAZARD.—Nothing in this  
24 section shall be construed to affect the author-

1           ity of the Administrator under section 7003  
2           with respect to coal combustion residuals.

3           “(C) TECHNICAL AND ENFORCEMENT AS-  
4           SISTANCE ONLY UPON REQUEST.—Upon re-  
5           quest from the head of a lead State agency that  
6           is implementing a coal combustion residuals  
7           permit program, the Administrator may provide  
8           to such State agency only the technical or en-  
9           forcement assistance requested.

10          “(3) CITIZEN SUITS.—Nothing in this section  
11          shall be construed to affect the authority of a person  
12          to commence a civil action in accordance with sec-  
13          tion 7002.

14          “(j) MINE RECLAMATION ACTIVITIES.—A coal com-  
15          bustion residuals permit program implemented under sub-  
16          section (e) by the Administrator shall not apply to the uti-  
17          lization, placement, and storage of coal combustion residu-  
18          als at surface mining and reclamation operations.

19          “(k) DEFINITIONS.—In this section:

20                 “(1) COAL COMBUSTION RESIDUALS.—The  
21                 term ‘coal combustion residuals’ means—

22                         “(A) the solid wastes listed in section  
23                         3001(b)(3)(A)(i), including recoverable mate-  
24                         rials from such wastes;

1           “(B) coal combustion wastes that are co-  
2 managed with wastes produced in conjunction  
3 with the combustion of coal, provided that such  
4 wastes are not segregated and disposed of sepa-  
5 rately from the coal combustion wastes and  
6 comprise a relatively small proportion of the  
7 total wastes being disposed in the structure;

8           “(C) fluidized bed combustion wastes;

9           “(D) wastes from the co-burning of coal  
10 with non-hazardous secondary materials pro-  
11 vided that coal makes up at least 50 percent of  
12 the total fuel burned; and

13           “(E) wastes from the co-burning of coal  
14 with materials described in subparagraph (A)  
15 that are recovered from monofills.

16           “(2) COAL COMBUSTION RESIDUALS PERMIT  
17 PROGRAM.—The term ‘coal combustion residuals  
18 permit program’ means a permit program or other  
19 system of prior approval and conditions that is  
20 adopted by or for a State for the management and  
21 disposal of coal combustion residuals to the extent  
22 such activities occur in structures in such State.

23           “(3) STRUCTURE.—The term ‘structure’ means  
24 a landfill, surface impoundment, or other land-based  
25 unit which may receive coal combustion residuals.

1           “(4) REVISED CRITERIA.—The term ‘revised  
2           criteria’ means the criteria promulgated for munic-  
3           ipal solid waste landfill units under section 4004(a)

5           tion 4010(c) in accordance with the requirement of  
6           such section that the criteria protect human health  
7           and the environment.”.

8           (b) 2000 REGULATORY DETERMINATION.—Nothing  
9           in this section, or the amendments made by this section,  
10          shall be construed to alter in any manner the Environ-  
11          mental Protection Agency’s regulatory determination enti-  
12          tled “Notice of Regulatory Determination on Wastes from  
13          the Combustion of Fossil Fuels”, published at 65 Fed.  
14          Reg. 32214 (May 22, 2000), that the fossil fuel combus-  
15          tion wastes addressed in that determination do not war-  
16          rant regulation under subtitle C of the Solid Waste Dis-  
17          posal Act (42 U.S.C. 6921 et seq.).

4                           **CODE.**

5           Except as otherwise expressly provided, whenever in  
6 this title an amendment or repeal is expressed in terms

13 101(b) is amended by adding at the end the following:

14                   “(4)   **EXPEDITED PROJECT DELIVERY.**—Con-  
15 gress declares that it is in the national interest to  
16 expedite the delivery of surface transportation  
17 projects by substantially reducing the average length  
18 of the environmental review process. Accordingly, it  
19 is the policy of the United States that—

20                           “(A) the Secretary shall have the lead role  
21 among Federal agencies in carrying out the en-  
22 vironmental review process for surface transpor-  
23 tation projects;

24                           “(B) each Federal agency shall cooperate  
25 with the Secretary to expedite the environ-

1           mental review process for surface transpor-  
2           tation projects;

3           “(C) there shall be a presumption that the  
4           mode, facility type, and corridor location for a  
5           surface transportation project will be deter-  
6           mined in the transportation planning process,  
7           as established in sections 134 and 135 and sec-  
8           tions 5303 and 5304 of title 49;

9           “(D) project sponsors shall not be prohib-  
10          ited from carrying out pre-construction project  
11          development activities concurrently with the en-  
12          vironmental review process;

13          “(E) programmatic approaches shall be  
14          used, to the maximum extent possible, to reduce  
15          the need for project-by-project reviews and deci-  
16          sions by Federal agencies; and

17          “(F) the Secretary shall actively support  
18          increased opportunities for project sponsors to  
19          assume responsibilities of the Secretary in car-  
20          rying out the environmental review process.”.

21 **SEC. 603. EXEMPTION IN EMERGENCIES.**

22          If any road, highway, or bridge is in operation or  
23          under construction when damaged by an emergency de-  
24          clared by the Governor of the State and concurred in by  
25          the Secretary, or declared by the President pursuant to

1 the Robert T. Stafford Disaster Relief and Emergency As-  
2 sistance Act (42 U.S.C. 5121), and is reconstructed in the  
3 same location with the same capacity, dimensions, and de-  
4 sign as before the emergency, then that reconstruction  
5 project shall be exempt from any further environmental  
6 reviews, approvals, licensing, and permit requirements  
7 under—

17 1271 et seq.);

18 (6) the Fish and Wildlife Coordination Act (16  
19 U.S.C. 661 et seq.);

20 (7) the Endangered Species Act of 1973 (16  
21 U.S.C. 1531 et seq.), except when the reconstruction  
22 occurs in designated critical habitat for threatened  
23 and endangered species;

1 (A) in the heading by striking “GENERAL  
2 RULE” and inserting “ELIGIBILITY FOR REIM-  
3 BURSEMENT”; and

9 the expense of the State, acquisitions of interests in  
10 real property for a project before completion of the  
11 review process required for the project under the  
12 National Environmental Policy Act of 1969 (42  
13 U.S.C. 4321 et seq.) without affecting subsequent  
14 approvals required for the project by the State or  
15 any Federal agency.”; and

16 (5) in paragraph (3), as redesignated—

1           (c) FEDERALLY FUNDED ACQUISITION OF REAL  
2 PROPERTY INTERESTS.—Section 108 is further amended  
3 by adding at the end the following:

4           “(d) FEDERALLY FUNDED EARLY ACQUISITION OF  
5 REAL PROPERTY INTERESTS.—

6           “(1) IN GENERAL.—The Secretary may author-  
7 ize the use of Federal funds for the acquisition of  
8 a real property interest by a State. For purposes of  
9 this subsection, an acquisition of a real property in-  
10 terest includes the acquisition of any interest in  
11 land, including the acquisition of a contractual right  
12 to acquire any interest in land, or any other similar  
13 action to acquire or preserve rights-of-way for a  
14 transportation facility.

15           “(2) STATE CERTIFICATION.—A State request-  
16 ing Federal funding for an acquisition of a real  
17 property interest shall certify in writing that—

18           “(A) the State has authority to acquire the  
19 real property interest under State law;

20           “(B) the acquisition of the real property  
21 interest is for a transportation purpose; and

22           “(C) the State acknowledges that early ac-  
23 quisition will not be considered by the Secretary  
24 in the environmental assessment of a project,  
25 the decision relative to the need to construct a

1 project, or the selection of a project design or  
2 location.

3 “(3) ENVIRONMENTAL COMPLIANCE.—Before  
4 authorizing Federal funding for an acquisition of a  
5 real property interest, the Secretary shall complete  
6 for the acquisition the review process under the Na-  
7 tional Environmental Policy Act of 1969 (42 U.S.C.  
8 4321 et seq.). For purposes of the review process,  
9 the acquisition of a real property interest shall be  
10 treated as having independent utility and does not  
11 limit consideration of alternatives for future trans-  
12 portation improvements with respect to the real  
13 property interest.

14 “(4) PROGRAMMING.—The acquisition of a real  
15 property interest for which Federal funding is re-  
16 quested shall be included as a project in an applica-  
17 ble transportation improvement program under sec-  
18 tions 134 and 135 and sections 5303 and 5304 of  
19 title 49. The acquisition project may be included in  
20 the transportation improvement program on its own,  
21 without including the future construction project for  
22 which the real property interest is being acquired.  
23 The acquisition project may consist of the acquisi-  
24 tion of a specific parcel, a portion of a transpor-  
25 tation corridor, or an entire transportation corridor.

1           “(5) OTHER REQUIREMENTS.—The acquisition  
2           of a real property interest shall be carried out in  
3           compliance with all requirements applicable to the  
4           acquisition of real property interests for federally  
5           funded transportation projects.

6           “(e) CONSIDERATION OF LONG-RANGE TRANSPOR-  
7           TATION NEEDS.—The Secretary shall encourage States  
8           and other public authorities, if practicable, to acquire  
9           transportation real property interests that are sufficient  
10          to accommodate long-range transportation needs and, if  
11          possible, to do so through the acquisition of broad real  
12          property interests that have the capacity for expansion  
13          over a 50- to 100-year period and the potential to accom-  
14          modate one or more transportation modes.”.

15   **SEC. 605. STANDARDS.**

16          Section 109 is amended by adding at the end the fol-  
17          lowing:

18          “(r) UNDERTAKING DESIGN ACTIVITIES BEFORE  
19          COMPLETION OF ENVIRONMENTAL REVIEW PROCESS.—

20                 “(1) IN GENERAL.—A State may carry out, at  
21                 the expense of the State, design activities at any  
22                 level of detail for a project before completion of the  
23                 review process required for the project under the  
24                 National Environmental Policy Act of 1969 (42

1 U.S.C. 4321 et seq.) without affecting subsequent  
2 approvals of the project.

3 “(2) ELIGIBILITY FOR REIMBURSEMENT.—Sub-  
4 ject to paragraph (3), funds apportioned to a State  
5 under this title may be used to participate in the  
6 payment of costs incurred by the State for design  
7 activities, if the results of the activities are subse-  
8 quently incorporated (in whole or in substantial  
9 part) into a project eligible for surface transpor-  
10 tation program funds.

11 “(3) TERMS AND CONDITIONS.—The Federal  
12 share payable of the costs described in paragraph  
13 (2) shall be eligible for reimbursement out of funds  
14 apportioned to a State under this title when the de-  
15 sign activities are incorporated (in whole or in sub-  
16 stantial part) into a project eligible for surface  
17 transportation program funds, if the State dem-  
18 onstrates to the Secretary and the Secretary finds  
19 that—

20 “(A) before the time that the cost incurred  
21 by a State is approved for Federal participa-  
22 tion, environmental compliance pursuant to the  
23 National Environmental Policy Act of 1969 (42  
24 U.S.C. 4321 et seq.) has been completed for the

1 project for which the design activities were con-  
2 ducted by the State; and

3 “(B) the design activities conducted pursu-  
4 ant to this subsection did not preclude the con-  
5 sideration of alternatives to the project.”.

6 **SEC. 606. LETTING OF CONTRACTS.**

7 (a) BIDDING REQUIREMENTS.—Section 112(b)(1) is  
8 amended to read as follows:

9 “(1) IN GENERAL.—

10 “(A) COMPETITIVE BIDDING REQUIRE-  
11 MENT.—Subject to paragraphs (2), (3), and  
12 (4), construction of each project, subject to the  
13 provisions of subsection (a), shall be performed  
14 by contract awarded by competitive bidding, un-  
15 less the State transportation department dem-  
16 onstrates, to the satisfaction of the Secretary,  
17 that some other method is more cost effective  
18 or that an emergency exists.

19 “(B) BASIS OF AWARD.—

20 “(i) IN GENERAL.—Contracts for the  
21 construction of each project shall be  
22 awarded only on the basis of the lowest re-  
23 sponsive bid submitted by a bidder meeting  
24 established criteria of responsibility.

1           “(ii) PROHIBITION.—No requirement  
2           or obligation shall be imposed as a condi-  
3           tion precedent to the award of a contract  
4           to such bidder for a project, or to the Sec-  
5           retary’s concurrence in the award of a con-  
6           tract to such bidder, unless such require-  
7           ment or obligation is otherwise lawful and  
8           is specifically set forth in the advertised  
9           specifications.”.

10       (b)     DESIGN-BUILD        CONTRACTING.—Section  
11 112(b)(3) is amended—

12           (1) in subparagraph (A) by striking “subpara-  
13           graph (C)” and inserting “subparagraph (B)”;

14           (2) by striking subparagraph (B);

19                (A) in the matter preceding clause (i) by  
20                striking “of the SAFETEA-LU” and inserting

21                “of the Surface Transportation Extension Act  
22                of 2012, Part II”;

23                (B) in clause (ii) by striking “and” at the  
24                end;

25                (C) in clause (iii)—

1 (i) by striking “final design or”; and

2 (ii) by striking the period at the end

3 and inserting “; and”; and

4 (D) by adding at the end the following:

5 “(iv) permit the State transportation  
6 department, the local transportation agen-  
7 cy, and the design-build contractor to pro-  
8 ceed, at the expense of one or more of  
9 those entities, with design activities at any  
10 level of detail for a project before comple-  
11 tion of the review process required for the  
12 project under the National Environmental  
13 Policy Act of 1969 (42 U.S.C. 4321 et  
14 seq.) without affecting subsequent approv-  
15 als required for the project. Design activi-  
16 ties carried out under this clause shall be  
17 eligible for Federal reimbursement as a  
18 project expense in accordance with the re-  
19 quirements under section 109(r).”.

20 (c) EFFICIENCIES IN CONTRACTING.—Section 112(b)

21 is amended by adding at the end the following:

23 “(A) IN GENERAL.—

24 “(i) TWO-PHASE CONTRACT.—A con-  
25 tracting agency may award a two-phase

1 contract for preconstruction and construc-  
2 tion services.

3 “(ii) PRE-CONSTRUCTION SERVICES  
4 PHASE.—In the pre-construction services  
5 phase, the contractor shall provide the con-  
6 tracting agency with advice for scheduling,  
7 work sequencing, cost engineering,  
8 constructability, cost estimating, and risk  
9 identification.

10 “(iii) AGREEMENT.—Prior to the  
11 start of the construction services phase,  
12 the contracting agency and the contractor  
13 may agree to a price and other factors  
14 specified in regulation for the construction  
15 of the project or a portion of the project.

16 “(iv) CONSTRUCTION PHASE.—If an
