The Alliance to Fight the 40 | Don't Tax My Health Care is a broad-based coalition comprised of businesses, patient advocates, employer organizations, unions, local governments, health care companies, consumer groups and other stakeholders that support employer-sponsored health coverage. This coverage is the backbone of our health care system and protects over 177 million Americans. The Alliance seeks to repeal the 40% "Cadillac Tax" on health benefits and work with Congress and the Administration to prevent increased income taxes on workers, families and retirees who rely on employer-sponsored health coverage. The Alliance is committed to ensuring that employer-sponsored coverage remains an effective and affordable option for working Americans and their families.
