SEC. 6001. PHARMACY REIMBURSEMENT.

(a) Definition of average manufacturer price.—

(1) In general.—Section 1927(k)(1) (42 U.S.C. 1396r–8(k)(1)) is amended—

(A) in the paragraph heading, by striking “PRICE” and inserting “PRICE; WEIGHTED AVERAGE MANUFACTURER PRICE”;

(B) by striking “The term” and inserting the following:

“(A) IN GENERAL.—The term”; and

(C) by adding at the end the following:
“(B) Calculation requirements. — For purposes of subparagraph (A), the average manufacturer price shall be calculated according to the following:

“(i) Sales exempted from computation.—Without regard to—

“(I) sales exempt from inclusion in the determination of best price under subsection (c)(1)(C)(i);

“(II) such other sales as the Secretary identifies as sales to an entity that are merely nominal in amount under subsection (c)(1)(C)(ii)(III); and

“(III) bona fide service fees (as defined in subparagraph (E)) that are paid by a manufacturer to an entity, that represent fair market value for a bona fide service, and that are not passed on in whole or in part to a client or customer of an entity.

“(ii) Sale price net of discounts.—By including the following:

“(I) Cash discounts and volume discounts.
“(II) Free goods that are contingent upon any purchase requirement or agreement.

“(III) Sales at a nominal price that are contingent upon any purchase requirement or agreement.

“(IV) Chargebacks, rebates provided to a pharmacy (including a mail order pharmacy but excluding a pharmacy benefit manager), or any other direct or indirect discounts.

“(V) Any other price concessions, which may be based on recommendations of the Inspector General of the Department of Health and Human Services, that would result in a reduction of the cost to the purchaser, but only if the Secretary provides notice of the Secretary’s intent to include such price concessions in accordance with section 553 of title 5, United States Code.

“(C) Weighted average manufacturer price.—The term ‘weighted average manufacturer price’ means, with respect to a
rebate period and multiple source drug, the volume-weighted average of the average manufacturer prices reported under subsection (b)(3)(A)(i)(I) for all drug products described in paragraph (7)(A)(i) that are therapeutically equivalent and bioequivalent forms of the drug, determined by—

“(i) computing the sum of the products (for each National Drug Code assigned to such drug products) of—

“(I) the average manufacturer price; and

“(II) the total number of units reported sold under subsection (b)(3)(A)(i)(I); and

“(ii) dividing the sum determined under clause (i) by the sum of the total number of units under clause (i)(II) for all National Drug Codes assigned to such drug products.

“(D) LIMITATION ON SALES AT A NOMINAL PRICE.—

“(i) IN GENERAL.—For purposes of clauses (i)(II) and (ii)(III) of subparagraph (B), only sales by a manufacturer of
covered outpatient drugs that are single source drugs, innovator multiple source drugs, or authorized generic drugs at nominal prices to the following shall be considered to be sales at a nominal price or merely nominal in amount:

“(I) A covered entity described in section 340B(a)(4) of the Public Health Service Act.

“(II) An intermediate care facility for the mentally retarded.

“(III) A State-owned or operated nursing facility.

“(IV) Any other facility or entity that the Secretary determines is a safety net provider to which sales of such drugs at a nominal price would be appropriate based on the following factors:

“(bb) The services provided by the facility.

“(cc) The patient population served by the facility.
“(dd) The number of other facilities eligible to purchase at nominal prices in the same service area.

“(ii) NONAPPLICATION.—Clause (i) shall not apply with respect to sales by a manufacturer at a nominal price of covered outpatient drugs that are single source drugs, innovator multiple source drugs, or authorized generic drugs pursuant to a master agreement under section 8126 of title 38, United States Code.

“(E) BONA FIDE SERVICE FEES.—For purposes of subparagraph (B)(i)(III), the term ‘bona fide service fees’ means expenses that are for an itemized service actually performed by an entity on behalf of a manufacturer that would have generally been paid for by the manufacturer at the same rate had these services been performed by another entity.”.

(2) CONFORMING AMENDMENTS.—Section 1927(b)(3)(A)(i) (42 U.S.C. 1396r–8(b)(3)(A)(i)), as amended by section 6003(a), is amended—

(A) in subclause (I)—
(i) by inserting “and the total number of units sold” after “(as defined in subsection (k)(1))”; and

(ii) by striking “and” at the end;

(B) in subclause (II), by adding “and” at the end; and

“(III) information and data on any sales that were made during such period at a nominal price, including, with respect to each such sale, the purchaser, the name of the product, the amount or number of units of the product sold at a nominal price, and the nominal price paid;”.

(3) EFFECTIVE DATE.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the amendments made by this subsection shall take effect on January 1, 2006.

(B) EXCEPTION.—Subparagraph (D) of section 1927(k)(1) of the Social Security Act (42 U.S.C. 1396r–8(k)(1)) (as added by paragraph (1)) shall not apply with respect to a contract in effect on the date of enactment of this
Act pursuant to which pharmaceutical products
are or may be available at nominal prices until
the expiration date of such contract, or October
1, 2006, whichever is earlier, and shall apply to
sales made, and rebate periods beginning, on or
after that date.

(b) Upper Payment Limit for Ingredient Cost
of Covered Outpatient Drugs.—

(1) In General.—Section 1927(e) (42 U.S.C.
1396r–8(e)) is amended to read as follows:

“(e) Pharmacy Reimbursement Limits.—

“(1) Upper payment limit for ingredient
cost of covered outpatient drugs.—No Fed-
eral financial participation shall be available for pay-
ment for the ingredient cost of a covered outpatient
drug that exceeds the upper payment limit for that
drug established under paragraph (2).

“(2) Upper payment limit.—

“(A) In General.—Except as provided in
subparagraphs (B) and (C), the upper payment
limit established under this paragraph for the
ingredient cost of a—

“(i) single source drug, is 105 percent
of the average manufacturer price for that
drug; and
“(ii) multiple source drug, is 115 percent of the weighted average manufacturer price for that drug.

“(B) EXCEPTION FOR INITIAL SALES PERIODS.—

“(i) IN GENERAL.—In the case of a covered outpatient drug during an initial sales period (not to exceed 2 calendar quarters) in which data on sales for the drug is not sufficiently available from the manufacturer to compute the average manufacturer price or the weighted average manufacturer price, the Secretary shall establish the upper payment limit for the ingredient cost of such drug to apply only during such period based on the following:

“(I) In the case of a single source drug, such upper payment limit shall be the wholesale acquisition cost for the drug.

“(II) In the case of a first non-innovator multiple source drug, such upper payment limit shall be the average manufacturer price for the single source drug that is rated as therapeutically equivalent to the single source drug.”
peutaclvally equivalent and bioequivalent 
to such drug, minus 10 percent.

“(III) In the case of a subse-
quent noninnovator multiple source 
drug—

“(aa) if the Secretary has 
sufficient data to determine the 
weighted average manufacturer 
price for the drug, such upper 
payment limit shall be the 
weighted average manufacturer 
price determined for the thera-
peutically equivalent and bio-
equivalent form of the drug; and

“(bb) if the Secretary does 
not have sufficient data to deter-
mine the weighted average manu-
facturer price for the drug, such 
upper payment limit shall be the 
average manufacturer price for 
the single source drug that is 
rated as therapeutically equiva-
 lent and bioequivalent to the 
drug, minus 10 percent.
“(ii) Definition of wholesale acquisition cost.—For purposes of clause (i), the term ‘wholesale acquisition cost’ means, with respect to a drug or biological, the manufacturer’s list price for the drug or biological to wholesalers or direct purchasers in the United States, not including prompt pay or other discounts, rebates, or reductions in price, for the most recent month for which the information is available, as reported in wholesale price guides or other publications of drug or biological pricing data.

“(C) Exception for certain innovator multiple source drugs.—In the case of an innovator multiple source drug that a prescribing health care provider determines is necessary for treatment of a condition and that a noninnovator multiple source drug would not be as effective for the individual or would have adverse effects for the individual or both, and for which the provider obtains prior authorization in accordance with a program described in subsection (d)(5), the upper payment limit for the innovator multiple source drug shall be 105
percent of the average manufacturer price for such drug.

“(D) Updates; Availability of Data.—

“(i) Frequency of Determination.—The Secretary shall update the upper payment limits applicable under this paragraph on a quarterly basis, taking into account the most recent data collected for purposes of determining such limits and the Food and Drug Administration’s most recent publication of ‘Approved Drug Products with Therapeutic Equivalence Evaluations’.

“(ii) Collection of Data.—

“(I) In General.—Beginning on January 1, 2006, the Secretary shall collect data with respect to the average manufacturer prices and volume of sales of covered outpatient drugs (or, in the case of covered outpatient drugs that are first marketed after such date, beginning with the first quarter during which the drugs are first marketed).
“(II) Data reported for purposes of determining weighted average manufacturer price.—

Insofar as there is a lag in the reporting of the information on rebates and chargebacks so that adequate data are not available on a timely basis to update the weighted average manufacturer price for a multiple source drug, the manufacturer of such drug shall apply a methodology based on a 12-month rolling average for the manufacturer to estimate costs attributable to rebates and chargebacks for such drug. For years after 2006, the Secretary shall establish a uniform methodology to estimate and apply such costs.

“(iii) Availability of data to states.—Notwithstanding subsection (b)(3)(D), beginning with the first quarter of fiscal year 2006 for which data is available, and for each fiscal year quarter thereafter, the Secretary shall make available to States the most recently reported....
average manufacturer prices for single
source drugs and weighted average manu-
facturer prices for multiple source drugs.

“(E) AUTHORITY TO ENTER CON-
TRACTS.—The Secretary may enter into con-
tracts with appropriate entities to determine av-
erage manufacturer prices, volume, and other
data necessary to calculate the upper payment
limit for a covered outpatient drug established
under this subsection and to calculate that pay-
ment limit.

“(3) STATE USE OF PRICE DATA.—

“(A) DISTRIBUTION OF DATA.—The Sec-
retary shall devise and implement a means for
electronic distribution of the most recently cal-
culated weighted average manufacturer price
and the average manufacturer price for all cov-
ered outpatient drugs to each State agency des-
ignated under section 1902(a)(5) with responsi-
bility for the administration or supervision of
the administration of the State plan under this
title.

“(B) AUTHORITY TO ESTABLISH PAYMENT
RATES BASED ON DATA.—A State may use the
price data received in accordance with subpara-
graph (A) in establishing payment rates for the ingredient costs and dispensing fees for covered outpatient drugs dispensed to individuals eligible for medical assistance under this title.

“(4) REASONABLE DISPENSING FEES REQUIRED.—

“(A) IN GENERAL.—A State which provides medical assistance for covered outpatient drugs shall pay a dispensing fee for each covered outpatient drug for which Federal financial participation is available in accordance with this section in accordance with the following:

“(i) The dispensing fee for a noninnovator multiple source drug shall be greater than the dispensing fee for an innovator multiple source drug that is rated as therapeutically equivalent and bioequivalent to such drug.

“(ii) In establishing such dispensing fees, the State takes into consideration such requirements as the Secretary shall, by regulation, establish, and which shall include consideration of the following:

“(I) Any reasonable costs associated with a pharmacist’s time in
checking for information about an individual’s coverage or performing quality assurance activities.

“(II) Costs associated with—

“(aa) the measurement or mixing of a covered outpatient drug;

“(bb) filling the container for the drug;

“(cc) physically providing the completed prescription to an individual enrolled in the program under this title;

“(dd) delivery;

“(ee) special packaging;

“(ff) overhead related to maintaining the facility and equipment necessary to operate the pharmacy, including the salaries of pharmacists and other pharmacy workers;

“(gg) geographic factors that impact operational costs;

“(hh) patient counseling; and
“(ii) the dispensing of drugs requiring specialty pharmacy care management services (as determined by the Secretary in accordance with subparagraph (B)).

“(B) Determination of drugs requiring specialty pharmacy care management services.—

“(i) In general.—Not later than 15 months after the date of enactment of the Deficit Reduction Omnibus Reconciliation Act of 2005, the Secretary shall establish a list of covered outpatient drugs which require specialty pharmacy care management services that includes only those drugs for which the Secretary determines that access by individuals eligible for medical assistance under this title would be seriously impaired without the provision of specialty pharmacy care management services.

“(ii) Specialty pharmacy care management services defined.—For purposes of this paragraph, the term ‘specialty pharmacy care management services’

October 25, 2005
means services provided in connection with
the dispensing or administration of a cov-
ered outpatient drug which the Secretary
determines requires—

“(I) significant caregiver and
provider contact and education re-
respecting the relevant disease state,
prevention, treatment, drug indica-
tions, benefits, risks, complications,
use, pharmacy counseling, and expla-
nation of existing provider guidelines;

“(II) patient compliance services,
including coordination of provider vis-
its with drug delivery, compliance with
a drug dosing regimen, mailing or
telephone call reminders, compiling
compliance data, and assisting pro-
viders in developing compliance pro-
grams; or

“(III) tracking services, including
developing referral processes with pro-
viders, screening referrals, and track-
ing patient weight for dosing require-
ments.
“(iii) QUARTERLY UPDATES.—The Secretary shall update the list of covered outpatient drugs requiring specialty pharmacy management services on a quarterly basis.
