

113TH CONGRESS  
2D SESSION

**S.** \_\_\_\_\_

To preserve religious freedom and a woman’s access to contraception.

---

IN THE SENATE OF THE UNITED STATES

---

\_\_\_\_\_ introduced the following bill; which was read twice  
and referred to the Committee on \_\_\_\_\_

---

**A BILL**

To preserve religious freedom and a woman’s access to  
contraception.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Preserving Religious  
5 Freedom and a Woman’s Access to Contraception Act”.

6 **SEC. 2. FINDINGS.**

7 Congress make the following findings:

8 (1) Instead of restricting Americans’ religious  
9 freedoms, Congress should preserve a woman’s abil-  
10 ity to make contraceptive decisions for herself.

1           (2) The freedom of religion is the first freedom  
2 listed in the First Amendment to the Constitution of  
3 the United States, and Congress has a strong inter-  
4 est in protecting the free exercise of religion for  
5 Americans of all faiths.

6           (3) The Religious Freedom Restoration Act of  
7 1993 was signed by President Clinton on November  
8 16, 1993, after passing the House of Representa-  
9 tives unanimously and passing the Senate with the  
10 votes of 97 Senators, including 16 currently serving  
11 Senators and the Vice President.

12           (4) Title VII of the Civil Rights Act of 1964  
13 provides important protections against discrimina-  
14 tion on the basis of race, color, religion, sex, or na-  
15 tional origin.

16           (5) The Health Insurance Portability and Ac-  
17 countability Act and amendments made by that Act  
18 establish comprehensive protections to ensure that  
19 any medications used by or prescribed for an indi-  
20 vidual are not disclosed to an employer in its capac-  
21 ity as an employer.

22           (6) The Food and Drug Administration has  
23 found a number of contraceptives to be proven safe  
24 and effective at preventing pregnancies as well as in  
25 managing certain medical conditions.

1           (7) There are 5 programs, including the Med-  
2           icaid program, carried out by the Department of  
3           Health and Human Services that provide access to  
4           contraception for low-income women.

5           (8) Federal and State government spending for  
6           contraceptive services totaled \$2,370,000,000 in fis-  
7           cal year 2010 and the Medicaid program financed  
8           75 percent of government spending for family plan-  
9           ning.

10          (9) More than 19,000,000 women were eligible  
11          for government-supported contraceptive services in  
12          2010.

13          (10) Even before Obamacare mandated that  
14          employers fully subsidize employees' contraception,  
15          women had wide access to Food and Drug Adminis-  
16          tration-approved contraception and such contracep-  
17          tion was covered by insurance at over 85 percent of  
18          large businesses.

19          (11) Now, Obamacare's various requirements  
20          cause an unprecedented intrusion of government  
21          mandates into Americans' personal health care deci-  
22          sions, including unprecedented Federal mandates  
23          that employers become involved in those decisions,  
24          and the individual mandate, which requires individ-  
25          uals to purchase health insurance or pay a penalty.

1           (12) Obamacare has created an enormous dis-  
2           ruption in the personal health insurance options of  
3           millions of Americans whose health insurance plans  
4           were cancelled or whose preferred doctors were not  
5           included in their new health insurance plan net-  
6           works.

7           (13) The Congressional Budget Office estimates  
8           that Obamacare could reduce employment by the  
9           equivalent of 2,000,000 jobs over the next 10 years.

10          (14) One of Obamacare's mandates places  
11          2,600,000 Americans, nearly two-thirds of them  
12          women, at risk of having their hours and wages re-  
13          duced, according to the Hoover Institution.

14          (15) Obamacare's cuts to the Medicare Advan-  
15          tage program and other regulatory actions could re-  
16          duce the average benefit for women who rely on the  
17          program by \$1,538 per year, or 13 percent.

18          (16) Obamacare's payroll tax increase creates  
19          an inequitable tax penalty for married working  
20          women.

21          (17) Obamacare places limitations on health  
22          savings accounts, flexible spending accounts, and  
23          other consumer-directed health savings vehicles,  
24          which help approximately 17,400,000 Americans to

1       save for their own health expenses, including contra-  
2       ceptives.

3           (18) The current Administration has granted  
4       discretionary compliance waivers from Obamacare to  
5       a variety of for-profit businesses, unions, and other  
6       organizations.

7           (19) To date, the Department of Health and  
8       Human Services has granted more than 1,000 indi-  
9       vidual waiver requests for employers and insurers,  
10      excusing the employers and insurers from compli-  
11      ance with various aspects of the law.

12 **SEC. 3. SENSE OF THE SENATE.**

13       It is the sense of the Senate that the Food and Drug  
14      Administration should study whether contraceptives that  
15      are available with a prescription, on the date of enactment  
16      of this Act, would be safe and effective for adults if avail-  
17      able without a prescription.

18 **SEC. 4. EMPLOYEE PROTECTION.**

19       Notwithstanding any other provision of law, an em-  
20      ployer who is engaged in interstate commerce may not  
21      prohibit an employee from purchasing, pursuant to State  
22      prescribing and dispensing laws, a drug or medical device,  
23      including a contraceptive, that is regulated by the Food  
24      and Drug Administration.

1 **SEC. 5. EMPOWERING EMPLOYEES TO MAKE HEALTH**  
2 **CHOICES.**

3 (a) NO LIMITATIONS BASED ON WHETHER A DRUG  
4 IS PRESCRIBED.—Section 9003 of the Patient Protection  
5 and Affordable Care Act (Public Law 111–148), and the  
6 amendments made by such section, are repealed, and the  
7 Internal Revenue Code of 1986 shall be applied as if such  
8 section, and amendments, had never been enacted.

9 (b) NO LIMITATIONS ON HEALTH FSAS.—Sections  
10 9005 and 10902 of the Patient Protection and Affordable  
11 Care Act (Public Law 111–148) and section 1403 of the  
12 Health Care and Education Reconciliation Act of 2010  
13 (Public Law 111–152), and the amendments made by  
14 such sections, are repealed, and the Internal Revenue  
15 Code of 1986 shall be applied as if such section, and  
16 amendments, had never been enacted.
