**SUPPLEMENTARY INFORMATION:**

*Title:* Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

*Abstract:* The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

**SUPPLEMENTARY INFORMATION:** Section 4007 of Title IV of the Employee Retirement Income Security Act of 1974 (ERISA) requires pension plans covered under Title IV pension insurance programs to pay premiums to PBGC. All plans covered by Title IV pay a flat-rate per-participant premium. An underfunded single-employer plan also pays a variable-rate premium based on the value of the plan's unfunded vested benefits.

Pursuant to section 4007, PBGC has issued its regulation on Payment of Premiums (29 CFR part 4007). Under § 4007.3 of the premium payment regulation, the plan administrator of each pension plan covered by Title IV of ERISA is required to file a premium payment and information prescribed by PBGC for each premium payment year. Premium information must be filed electronically using "My Plan Administration Account" ("My PAA") through PBGC's Web site except to the extent PBGC grants an exemption for good cause in appropriate circumstances, in which case the information must be filed using an approved PBGC form. Under § 4007.10

of the premium payment regulation, plan administrators are required to retain records about premiums and information submitted in premium filings.

Premium filings report (i) the flat-rate premium and related data (all plans), (ii) the variable-rate premium and related data (single-employer plans), and (iii) additional data such as identifying information and miscellaneous plan-related or filing-related data (all plans). PBGC needs this information to identify the plans for which premiums are paid, to verify whether the amounts paid are correct, to help PBGC determine the magnitude of its exposure in the event of plan termination, to help track the creation of new plans and transfer of participants and plan assets and liabilities among plans, and to keep PBGC's insured-plan inventory up to date. That information and the retained records are also needed for audit purposes.

PBGC is revising the 2015 filing procedures and instructions to require after-the-fact reporting of certain risk transfers through lump sum windows and annuity purchases. Risk transfers can substantially reduce the premiums that plans otherwise would pay to PBGC. Because PBGC premiums and the investment income earned on them are a major source of income for PBGC, information about risk transfers is critical to PBGC's ability to assess its future financial condition. There is currently no available comprehensive, detailed, and reliable source for information on risk transfers.

PBGC is also changing certain premium declaration certification procedures, offering the option for a plan to provide a telephone number specifically for inclusion in PBGC's Search Plan List on PBGC's Web site, updating the premium rates (including to reflect the Consolidated and Further Continuing Appropriations Act, 2015, Pub. L. 113-235), and making conforming, clarifying, and editorial changes.

On September 23, 2014 (at 79 FR 56831), PBGC gave public notice that it intended to submit the revised procedures and instructions to OMB for review. PBGC received nine comment letters from representatives of employers, pension practitioners, annuity providers, and participants.<sup>1</sup> The comments focused almost exclusively on the new risk transfer items. PBGC has made changes to the new items (both the questions

themselves and the instructions) in response to some of the comments. The changes and other responses to the comments are discussed in detail in the supporting statement to the OMB submission.

The collection of information under the regulation has been approved through April 30, 2017, by OMB under control number 1212-0009. PBGC intends to request that OMB approve the revised collection of information for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will receive 25,700 premium filings per year from 25,700 plan administrators under this collection of information. PBGC further estimates that the average annual burden of this collection of information is approximately 8,000 hours and \$53,200,000.

Issued in Washington, DC, this 7th day of January, 2015.
